Opening

- Opening was done by Khanyisile Ngoma (Project Manager).

Update from Project Manager after the presentation

- I'm sorry for texting today but I wanted to do it before I forget. We can discuss this on Monday or Tuesday. It's just feedback from Product Owner.

Update

- The next part of the project is research. We need to do more research on the existing companies that are similar to ours.

How we going to go this?

> ➢ Everyone is going to choose a company that they going to do research on. I'm going to name the examples we got from Product Owner, I didn't hear all of them so you can add on

1. Metropolitan

2. Investec

3. Old Mutual

4.

5.

6.

In total we should have 6 researches. The research is due on the 20th of April 2023

The research should have the following points:

- Investment policies

- Multiple investment types

- Steps of investment (if provided)

- How the app is set up

(The UI screens, so we can get an idea of how our app will be set up)

Thank you my feedback ends here,

ENJOY YOUR WEEKEND.
